

RESEARCH NOTES | 28 OCTOBER 2026

What is behind the ₱1.31-billion figure?

Luistro, the shared Batangas engineering office, and the 77 project entries

Prepared by Morning Coffee Thoughts

A comparison of published budget records, with methods, qualifications and links to the source documents. Includes all 77 candidate entries and three verified changes to existing projects.

Research credit: BetterGov.ph and the Angry Nerds made the comparison data and source documents easier to access. MCT checked the entries and amounts and prepared these notes. This is an independent research companion, not an official government finding.

Finding: A reproducible filter of BetterGovPH's project comparison returns 77 House-only candidate entries totaling **₱1,307,771,000**. This matches the project count and rounded amount reported from the People's Budget Coalition presentation. It is a list of potential additions, not the engineering office's entire budget and not its net increase.

The underlying office is Batangas 2nd District Engineering Office, which serves the second and fifth legislative districts. The PBC presentation's original 77-row attachment was not separately obtained; this report reconstructs the matching count and amount from BetterGovPH's public data.

Project locations

The categories below classify explicit places in the 77 project titles. They do not divide an engineering-office total by population or assign projects to legislators. The second district contains Bauan, Lobo, Mabini, San Luis, San Pascual and Tingloy. The fifth is Batangas City, under Republic Act 10673.

Title-based location category	Entries	House amount
Batangas City / 5th district	14	₱345,000,000
Explicit municipality / 2nd district	47	₱598,000,000
Road section: location not assigned in this review	16	₱364,771,000
Total	77	₱1,307,771,000

The unassigned category deliberately keeps road and kilometer-section entries separate, even where a route name suggests a district. No claim of complete district-level allocation is made from this subset. The ₱598 million is a subtotal of explicitly named locations, not the complete second-district amount. Some unassigned road sections may also lie within that district.

Direct comparisons of existing projects

These are changes to matched projects, separate from the 77 candidate additions. Amounts were checked in the downloaded NEP and House PDFs.

Project	NEP	House	Source pages
Construction of Multi-Purpose Building (Barangay Hall), Barangay Malimatoc II, Mabini, Batangas	₱30,000,000	₱15,000,000	NEP p. 609; House p. 752
Construction of Road, Alalum-Sta. Elena-Ilat North, San Pascual, Batangas	₱10,000,000	₱15,000,000	NEP p. 505; House p. 537
Rehabilitation of Multi-Purpose Building (Covered Court) at Barangay Banoyo, San Luis, Batangas	₱5,000,000	₱10,000,000	NEP p. 609; House p. 753

What Luistro said

GMA's October 28 report says Luistro had been told the amounts in the NEP and House-approved bill were almost the same, that she asked the district engineering office about the ₱1.3-billion figure, and that she wanted the list to verify it. This is a reported statement, not a verified transcript of the full interview. The House's October 20 press release records her confidence in the House-approved budget. A later October 28 report in Daily Tribune says she acknowledged that the office serves both districts, explained that impeachment duties affected her participation in the budget process, and planned to coordinate with the appropriations committee. These reports do not establish her knowledge of each individual project.

Assessment: The ₱1.31-billion figure has a reproducible documentary basis. Presenting it as entirely Luistro's district allocation is inaccurate. Her reported reference to nearly unchanged amounts does not answer which individual projects were added or changed. This review does not establish the complete geographic net change for her legislative district, her knowledge at the time, or who requested each amendment.

Checks performed and limits

1. Downloaded the 77 records from the public API using office=Batangas 2nd District Engineering Office, group=house_only, held=hide. Recomputed the count and total.
2. All 77 titles were found in their cited House second-reading PDF pages after removing amount-column interruptions and normalizing punctuation and spacing. Every listed amount appears on its cited page. Selected entries were also checked visually.
3. The downloaded House second-reading PDF and NEP PDF SHA-256 fingerprints match the comparison portal's document manifest. All 77 API records show identical second- and third-reading amounts. The third-reading PDF was subsequently downloaded successfully. Its SHA-256 matched the manifest (48cb7a11e391bd4da89d4f47cf39a2eba8fe9bfe636dba101c8284b224ac1b1b). All 77 normalized titles and their cited page amounts were checked in that PDF, as were the three matched-project changes shown above.
4. No full normalized project title from the 77 appears verbatim in the extracted NEP text. This is a screening check, not proof that renamed, regrouped, OCR-affected or differently scoped equivalents are absent. The source therefore calls them insertion candidates. The separate 20 ambiguous House-only entries worth ₱215 million were excluded from this reconstructed 77-row list.
5. The NEP relevant building and road sections were checked for selected examples. The San Luis municipal hall (₱50m), Lobo Senior High School covered court (₱23m), Mabini Super Health Center completion (₱20m), and Sitio Malabnig road (₱50m) appear in the House list; no corresponding named entries were located in the NEP review.
6. BetterGovPH's office ledger shows ₱1,679,991,000 in NEP named projects and ₱2,664,371,000 in House named projects, a ₱984,380,000 increase for the shared-office ledger. That calculation excludes seven paired lines involving office changes and includes 20 ambiguous lines. It is not a net change for Luistro's district. The broader office-filter search contains office-change rows and returns different totals; the two scopes must not be mixed.
7. The tables do not identify project proponents. Luistro's individual third-reading vote was not verified. No authoring or knowledge claim is inferred from geography or chamber approval.
8. No interview or request for comment was sent. The original amendment requests, full interview, and a complete geographic comparison remain necessary before claiming who caused the changes or whether her full-district total was nearly unchanged.

All 77 entries

Source classification for every row: House-only candidate, with no ambiguous-match hold in this snapshot. NEP amount is absent from the candidate record, not asserted to be zero. Amounts are proposed appropriations, not expenditure or money received by a legislator.

Source qualifications retained

BetterGovPH's comparison is independent and unofficial. An insertion, deletion or amount-change candidate describes a provisional comparison, not a finding of wrongdoing. Office associations do not establish that a representative requested, sponsored or controlled a project. Shared-office totals remain undivided; project-title geography above is a separate limited classification. Central and regional office projects, unplaced items and office-change lines are not a complete geographic district ledger. See the linked office API for the full residual and uncertainty annotations.
